

Feedback Report Part-2

1. What tools are you using for making the project for example: eclipse, jframe, etc?

Ans: We have used eclipse for making the project.

2. Have you made any changes to the data structure you have selected? If yes then why?

Ans: We have used Queue data structure as it is. In that we inserted a node containing Order Id , Customer Id, and customer's multiple items and Customer's address to deliver the order.

3. What is the progress of your project? What all have you accomplished in these 2 weeks?

Ans: In last 2 weeks we worked on presentation of our project and spacing part.

4. Did you face any problems in these 15 days and were you able to resolve them?

Ans : We were failing to implement for multiple customers. But as we worked and found many solution from internet and overcame the problem.

5. Did you make any major changes in the Project?

Ans: Our project "At your door Mart" is mainly based on Manager point of view.

We opened our system for multiple customers or orders.

As first order is placed then that order will delivered first. It is the basic idea of our project.
